Vision

Cape Vincent is a small-town, rural community with unique, scenic, historical, and natural resources. We are committed to preserving these essential qualities that make it a desirable place to live while seeking to improve the local economy by promoting compatible residential and small business growth.

The community's vision has been renewed with a sharper focus on future growth that is sustainable and consistent with Cape Vincent's character. The community's preferences essentially remain the same: to protect its rural character, to respect and sustain the St. Lawrence River and Lake Ontario for both pleasure and commerce, to embrace our agrarian culture, to promote our historical connections, and to achieve compatible economic and commercial growth.
